Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On April 20, 2017, Mission Bancorp approved a 5% stock dividend. The dividend is payable on June 5, 2017 to shareholders of record on May 22, 2017. Cash in lieu was paid on fractional shares based on the stock's market value on the close of business on May 22, 2017.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Each shareholder received a 5% increase in the number of shares that they held on May 22, 2017. Mission Bancorp had 1,583,326 shares of record on May 22, 2017. Therefore, as a result of the 5% stock dividend, an additional 79,011 shares were issued on June 5, 2017 with the remaining 155.30 fractional shares paid in cash.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ On May 22, 2017, the market value of Mission Bancorp's common stock was \$43.20 per share prior to the stock dividend. The change in basis to the individual shareholder as a result of this stock dividend would be calculated by taking the adjusted basis of the old stock and allocating it between the old and new stock on the date of distribution. This organizational action would result in a decreased per share basis and an increase in the number of shares held by each taxpayer.

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ► The stock dividend is a non-taxable event to shareholders pursuant to Internal Revenue Code Section 305(a) which states that gross income does not include the amount of any distribution of the stock of a corporation made by such corporation to its shareholders with respect to its stock. Pursuant to Internal Revenue Code Section 307(a), the shareholder must compute basis for the dividend shares received by allocating the basis for the old stock between the old and new stock. Cash in lieu of fractional shares issued is a taxable event.

18 Can any resulting loss be recognized? ► No resulting loss is recognized on the date of distribution to each shareholder.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ► The 5% stock dividend was issued to shareholders of record on May 22, 2017 and payable on June 5, 2017.
